Right to work in the UK (Graduate Route, valid through 01/2028 — no sponsorship required)

PROFILE

Generative AI artist and AI video specialist who directs generative models as a filmmaking tool — authoring cinematic short-form content with deliberate lighting, composition, camera movement, pacing and continuity, not raw model output. Production pipeline runs ComfyUI custom node graphs with Flux 2 Dev for art-directed hero frames and Wan 2.2 image-to-video for motion, finished with colour grading, editing and original sound design in DaVinci Resolve and After Effects. Architectural background (BSc Architecture, MA Interior Design, RICS-accredited MSc) underpins art direction and visual storytelling.

EXPERIENCE

Generative AI / AI Visualisation Specialist (Freelance)

Greater London, UK / Remote · 10/2024 – Present

- Wrote, art-directed and produced a body of cinematic AI short films — multi-shot narrative reels with consistent characters, controlled single-source lighting, colour grade, music edit and original sound design — published as a public portfolio.
- Built an end-to-end generative video pipeline: Flux 2 Dev hero stills (ComfyUI, Mistral CLIP, ReferenceLatent for character and world consistency) → Wan 2.2 image-to-video → frame interpolation → grade, edit and sound finishing in DaVinci Resolve / After Effects.
- Engineered custom ComfyUI node graphs with ControlNet depth guidance, multi-image ReferenceLatent compositing, LoRA style adaptation and multi-prompt batch processing on NVIDIA RTX hardware.
- Licensed AI-generated 4K stock footage on Adobe Stock; built a professional audience of 6,000+ LinkedIn followers with 1,600+ weekly impressions.

Engineering Supervisor — Freeze Hand Co. (MEP Engineering & Construction)

Tehran, Iran · 07/2022 – 08/2024

- Coordinated multi-disciplinary design and on-site delivery across concurrent commercial and residential projects, through the full design-to-handover cycle.
- Implemented BIM-based clash detection in Revit and Navisworks, achieving a documented 15% reduction in pre-construction design conflicts.

EDUCATION

- **MSc Construction Project Management** — Oxford Brookes University, UK · 2024–2025 · Merit · RICS-accredited
- **MA Interior Design** — Islamic Azad University, South Tehran · 2021–2023 · Lighting Design, Digital Design Tools
- **BSc Architecture** — Islamic Azad University, Central Tehran · 2016–2021

SKILLS

- **Generative AI:** ComfyUI (custom node graphs) · Flux 2 Dev · Stable Diffusion · Wan 2.2 I2V · ReferenceLatent · ControlNet · LoRA · prompt engineering · fast adoption of emerging models (Runway, Kling, Veo)
- **Cinematography & Direction:** art direction · visual storytelling · lighting design · composition · camera movement · lensing · continuity · pacing
- **Post-Production:** DaVinci Resolve (edit + grade) · After Effects (motion, compositing, titling) · Premiere Pro · Photoshop · sound design · frame interpolation
- **3D & Architecture:** 3ds Max · V-Ray · D5 Render · Rhino 3D · Revit · AutoCAD
- **Languages:** English (full professional) · Persian (native)
